Patrons Are Ordered to Leave Their Stamp Money Enclosed in Convenient Envelopes.

Rural route patrons will be forced by the government to be more thoughtful of the convenience of the carrier man. A bulletin issued by the postmaster general, received Omaha Saturday, announces that all money left in rural route boxes for stamps, money orders and other postal supplies must be enclosed in envelopes or coin cards.

The rural route man rose in his dignity a few weeks ago and made some public remarks about the people that left pennies in the bottom of mail boxes for the purchase of stamps. Cold, benumbed and in a hurry, it makes the carrier man peevish to stand around in the snow and fish for coppers frozen to the bottom of an overgrown tomato can.

The government has come to his rescue and from February 15 on all money left in mail boxes must be enclosed in such a way that the mail man can grab it in a hurry.

Ladies' Aid society of the First Presbyterian church of Florence will hold a sale of fine pastry and home cooking at the postoffice on Saturday, February 5, from 1:30 to 4 p. m.

HELPS FOR RURAL ROUTE MAN BETTER FIRE **EOUIPMENT**

Small Blaze in the Outlying Districts Without Water Service Serves to Demonstrate the Need of Equipping the Department with Chemical Fire Extinguisher as an Auxilliary Protection and Help to the Department.

The fire at the residence of F. B. Nichols last Friday evening demonstrated one thing very forcibly; the of 97 feet on 15th street. the need of equipping the fire department with chemicals.

The fire was blazing freely and the Griffith got his chemical fire extinguisher into action, and, although it was but a hand affair, it shot a stream at least ten feet and extinguished the fire as quickly as it struck the blaze. The fire department made a very

quick run but owing to the lack of water were considerably handicapped and had it not been for the chemical would have had a very serious fire to cope with. Had the department been equipped with a chemical the lack of serious import.

If the city officials will equip the department with a chemical they will be able to put out a fire quicker and with less effort even in sections where there is a water supply than they are advice is given to a certain Florence building, Saturday, February 12 now able to do relying on water

Most fires taken when they are first under way can easily be put out with this method of fire fighting and the loss occasioned by water will be eliminated as well as the danger of the fire breaking out again after the company leaving.

There is no secret about the chemcals. They are simply the action of water, sulphuric acid and carbonate McClure's ad on page 8 contains of soda, and no fire can burn where

Now that Omaha has shown itself so forcibly in the matter of loaning its department to the smaller cities it behooves our city officials to better Thompson, J. B. Brisbin and R. H. the department in every way possible equipping it with a chemical.

In this connection the following leter in the Omaha papers by the Mayor will be of interest:

"The board of fire and police commissioners of Omaha ordered the chief of the fire department to discontinue tainable anywhere can be found in Mc- furnishing fire protection to the suburbs, viz., Benson, Dundee and Florence, after July 1, 1910. James Hunter Who Died at Superior Last Week Was An Early Resident of This City, Owing Property and In Business.-He Lived Here Seventeen Years From 1856 to 1873 and Was Prominent in Those Strenuous Days of Pioneering.

Last week the Omaha Bee carried the following news over this part of the state but there are very few in Florence who realized that James Hunter was one of the early settlers of this city and that he contributed toward the upbuilding of Florence as well as Superior:

"SUPERIOR, Neb., Jan. 26 .- (Special.)—James Hunter, aged 83 years, 8 months and 6 days, was buried here. He came to Nebraska in 1858 and located in Superior in 1875. He was among the first settlers of this town. hauling the lumber from Edgar; that was long before there was a railroad running into Superior. With his brother Alex, who is still living in this city, he opened a general store Knicker-"What is Smith's idea of here about 1875. They also operated do, and he doesn't think anybody else was the most promising town in the can do a thing he can't do."—Puck. whole country and the wise ones said whole country and the wise ones said it would be the commercial center of southern Nebraska and northern Kansas. But today Rubens is simply a country store without even a postoffice. The Hunter brothers conducted their store here until a few years ago, when they sold to two sons of Alex Hunter, who recently closed out the stock."

Alexander and James Hunter came to Florence in 1856 and lived here until 1873 when they moved to Superior. During that time they were in business and owned property. On August 25. 1860, they bought of Eliza K. Mitchell block 125 and on December 25, 1865, sold it to Jacob Weber and George Hoag. In the meantime they had established a sawmill on the place and turned out the lumber that was used in many of the earlier res-

After selling out the mill to Weber and Hoag they entered the general contracting business, until in 1861 they opened a dry goods and general store about where the drug store of for a wooden evercoat. George Siert is now located.

For seventeen years he lived in Florence but the Florence of today and the Florence of then are widely different and there has been lots of history made since he left. From the largest city in the state down to the smallest and back again to a thriving growing city is spanned after he left his impress on the community.

SYNOPSIS.

Baraka, a Tartar girl, became enamored of a golden bearded stranger who was prospecting and studying herbs in the vicinity of her home in central Asia, and revealed to him the location of a mine of rubies hoping that the stranger would love her in return for her disclosure. They were followed to the cave by the girl's relatives, who blocked up the entrance, and drew off the water supply, leaving the couple to die. Baraka's cousin Saad, her betrothed, attempted to climb down a cliff overlooking the mine; but the traveler shot him. The stranger was revived from a water gourd Saad carried, dug his way out of the tunnel, and departed, deserting the girl and carrying a bag of rubies. Baraka gathered all the gens she could carry, and started in pursuit. Margaret Donne (Margarita da Cordova), a famous prima donna, became engaged in London to Konstantin Logelbett, a wealthy Greek financier. Her intimate friend was Courtess Leven, known as Lady Maud, whose husband had been killed by a bomb in St. Petersburg: and Lady Maud's most intimate friend was Rufus Van Torp, an American, who had become one of the richest men in the world. Van Torp was in love with Margaret, and rushed to London as soon as he heard of her betrothal. He offered Lady Maud \$5,00,000 for her petcharity if she would aid him in winning the singer from Logotheti. Baraka approached Logotheti at Versailles with rubles to sell. He presented a ruby to Margaret. Van Torp bought a yacht and sent it to Venice. He was visited by Baraka in male attire. She gave him a ruby after the American had told her of having seen in the United States a macanswering the description of the one she loved. The American followed Margaret to the Bayreuth "Parsital" festival, Margaret took a liking to Van Torp, who presented her with the ruby Baraka had given him. Count Kralinsky, a Russian, arrived at Bayreuth. Van Torp believed him to be the one Baraka was pursuing. Baraka was arrested in London on the charge of stealing from Pinney, a jeweler, the ruby she had sold to Logotheti.

CHAPTER X .- Continued.

"But this woman's dressing is very difficult to learn," Baraka went on, leaning back upon the rail with both

amusing. She punctuated her explanations with small gestures indicative of her ignorance and helplessness.

"You will soon grow used to it," he said. "But you must get some pretty things in Paris before you go to meet the man. It would also be better to let your hair grow long before meeting him, for it is hard to wear the hats of the Feringhi ladies without hair."

"I cannot wait so long as that. Only to get pretty dresses, only so long! I will spend a thousand pounds or two —is that enough? I have much money in Paris; I can give much."

"You can get a good many things for a thousand pounds, even in Paris," Logotheti answered.

Baraka laughed.

"It will not be what I paid for the first clothes after I ran away," she "I did not know then what the said. stones were worth! A little ruby to one woman for a shift and an over- ret?" tunic, a little ruby to another for a pair of shoes, a little ruby for a veil question. and a head-blanket, all little rubies! good Persian merchant, and what he the Persian merchants everywhere with her. gave me letters from one to another, sian merchants are good men. All fear them, because they are wise in their dealings, but they are honest silent and shake their heads, and you was like the sort of man I've been, speak when they can hold their peace? But this is all emptiness! We must low-down that I wouldn't say it again, talk of the fine dresses I must buy in and I suppose I'm sorry. That's all." Paris, and of what I must put on my elbows, and sticking out her little head. The barbers in Paris sell wigs. white shoes close together. She had no maid away the Tartar girl on his yacht,

"I'm glad you have told me," she and their wives took me in, or I should answered, "though I wish she had have been robbed. That is how I not. You probably think that when I theti, in his evidence, had explained reached Stamboul after many, many wrote that letter I remembered what his absence from the police court by months, more than a year. The Per- you said to me in London about giv- the fact that he had been off in the sian merchants are good men. All ing me money for my poor women."

"No," said Van Torp thoughtfully, news. "I don't believe I do think so. It was what I did, but it's so precious like rising again.

His rough hand was on the side of the little open carriage. She touched withdrew them instantly, for the porter was coming with her not very voluminous luggage.

understood, and I understand now."

Wagner's representatives on earth.

"See here," said Mr. Van Torp, T've almost persuaded them all to run down to Venice, and I want to know why you won't come too?"

'Venice?" Lady Maud was surprised. It's as hot as Tophet now, and full of mosquitoes. Why in the world do you want to take them there?"

"Well." answered the American, taking plenty of time over the monosyllable. "I didn't exactly mean to hind her, one of those magnificent stay there more than a few minutes. I've bought a pretty nice yacht since weeps that look so well on the stage I saw you, and she's there, eating her; head off, and I thought you might all come along with me on her and go home that way, or somewhere, and what I want you to decide right away is whether you'll come, provided they will-for I don't suppose you and I could go mooning around in the yacht by ourselves."

"And I don't suppose," returned Lady Maud, mimicking him ever so little, "that if 'they' decide not to come, you will have time for a long cruise.

"Now that's not fair." objected the American. "I didn't intend to put it in that way. Anyhow, will you come if they do? That's the point."

"Really, it depends a little on who they are. Do you mean only Margaret and that nice old friend of her-Mrs. Patmore, isn't she? I never met

"Rushmore," said Van Torp, correcting her. "Then there's the Russian-Count Kralinsky. Ever hear that him, she herself would return im-

"Never. It sounds Polish."

"He might be anything. Sometimes I'm absolutely sure he's a man I used to know out west when I was on the ranch, and then again there's something quite different about him. Something about his legs or his eyes, I that was passing before the hotel. can't tell which. I don't quite make him out."

They reached the hotel, and Van and she is a good Mussuinian-without that the beautiful Feringhi hat will Torp went off promptly, leaving Margaret to take Lady Maud upstairs and introduce her to Mrs. Rushmore. An hour later the two young women were together in Margaret's room, while Potts was unpacking for Lady

For Logo-Erinna for two days, out of reach of

Margaret's face grew darker as she men. They do not lie, but they are like me to make the offer, Maud. It listened, for she knew Lady Maud too well to doubt but that every word was must guess what they mean: and if and you've known me. But it wouldn't more than scrupulously true; and the you do not guess right, that is your have been like you to accept it. It deduction was at least a probable one. fault, not theirs. Why should they wasn't exactly low-down of me to say She bit her lip as she felt her anger

> "What do you advise me to do?" she asked, in a sullen tone.

"Telegraph to Logo and prepay an answer of 20 words. Telegraph to his same time to his house in Paris. Telegraph anything you like that really needs an immediate reply. That's "Thank you," she said quickly. "I the important thing. If he does not answer within 24 hours-say 36 at the They drove slowly up the Bahnhof- most-he is either on his yacht or strasse, through the dull little town, hiding. Excuse the ugly word, dearthat looks so thoroughly conscious of I don't think of any other. If you are its ancient respectability as having afraid of the servants, I'll take the once been the "residenz" of a duke of message to the telegraph office and Wurtemburg, and of its vast impor- send it for you. I suppose you have tance as the headquarters of Richard some way of signing which the clerks don't recognize-if you sign at all."

Margaret leaned back in her chair in silence. After a few seconds she turned towards the glass, rested her chin on her folded knuckles, and seemed to be consulting her own reflexion. It is a way some women have. Lady Maud glanced at her from time to time, but said nothing. and are a little too large for a room. She got her blotter and pen from a shelf, brought it back to the toilet table, picked up the chair in a very quiet and sensible way, as if she had nover been on the stage in her life, and sat down to write.

"I shall take your advice, dear," she said, opening the blotter and placing a large sheet of paper in the right po-

sition. Lady Maud rose and went to the window, where she stood looking out while Margaret wrote her message.

"You needn't write it out twice," she said, without turning round, "Just put 'duplicate message' and both addresses."

"Yes. Thank you." Margaret was already writing. Her message said it was absolutely necessary that she should see Logotheti directly, and bade him answer at once, if he could come to Bayreuth; if important financial affairs hindered

mediately to Paris to see him. She was careful to write "financial" affairs, for she would not admit that any other consideration could delay his obedience. While she was busy she heard, but scarcely noticed, an unearthly hoot from a big motor car There must have been something in the way, for the thing heoted again to go with you all. I shall be back in! almost at once, and then several times in quick succession, as if a gigantic brazen ass were beginning to bray just under the window. noises ended in a sort of wild, triumphant hewl, with a furious puffing,

Margaret finished. She looked up and saw Laay Maud The prima donna was sitting at her she was clinging with one hand to the telegraph office. He stood on the handing Mrs. Rushmore the sheet. toilet table, turned away from the flimsy chintz curtain, and her face doorstep and pointed in the direction glass, and Lady Maud occupied the was as white as a sheet. Margaret she was to follow as he answered her answered the Greek, wondering what only possible chair there was, a small, started in surprise, and rose to her question. feet so suddenly that she upset the

tle warm, I think, and I've been shut of her business. up in that stuffy train for 30 hours. put on my hat at once, and take it for you. The little walk will do me good. Where is the telegraph? But they can tell me downstairs. Don't bother! Walking always brings me round, no matter what has happened!"

She spoke nervousiy, in disjointed phrases, in a way not like herself, for there was generally an air of easy calm in all she did, as if nothing really mattered in the least, save when she was deeply interested; and hardly anything interested her now except what she had made her work. In all that belonged to that, she was energetic, direct and quick.

Margaret was sure that something was wrong, but let her go, since she insisted, and Lady Maud folded the written message and went to the door. Just as she was going to turn the handle Margaret spoke to her.

"If I have no answer to that by to-morrow afternoon I shall accept Mr. Van Torp's invitation."

"I hope you will go," Lady Maud said with sudden decision, "for if you do, I can go with you, and I'm dying to see the new yacht!"

Margaret looked at her in surprise, for it was only a little while since she had seemed much less ready to join the party, and only willing to do so, if at all, in order to please her friend. She saw Margaret's expression.

few minutes, and I want very much denly.

swered. "Did I frighten you? It was big fair beard, I suppose? Yes, thank

She went out into the dull street, with its monotonous houses, all two stories high, and she soon found the concern. "Won't you let me send for telegraph office and sent Margaret's something? Tea? Or something duplicate message. She had not iced? I'm sure you have had nothing glanced at it, but the clerk asked her questions about words that were not quite clearly written, and she was She was just going to ring, but her obliged to read it through. It occurred to her that it was couched in extreme-"No-please!" she cried. "I'm all ly peremptory terms, even for an ofright, indeed I am. The room is a lit- fended bride-elect; but that was none

> She resumed her walk, not knowing whither and not caring, always at the same even pace, and hardly noticing the people who passed her, of whom a good many were in two-horse cabs, some in queer little German motors. and a few on foot; and she thought, and wondered, and tried to understand, but could not. At all events. she was glad to be alone; she was glad not to have even Van Torp with her, and she was quite indifferent to the fact that time was passing, and that Margaret was beginning to wonder where in the world she was.

> "My dear child," Mrs. Rushmore said, when the prima donna expressed her surprise, "those English people are all alike, when they are once out on a road by themselves. They must take a long walk. They never know when to stop walking. I cannot understand what they can see in it. Perhaps you will kindly touch the bell, my dear, and I will send the tea away. It can be brought fresh for her when she comes. Thank you, Margaret. But she will not come in till it is just time to dress for dinner. Mark my words, my child, the countess will be late for dinner. All English people are. Have you heard from Mons. Logotheti to-day?"

"Not to-day," Margaret answered, repressing a little start, for she was as near to being nervous as she ever "Yes," she said, as if in explanation, was, and she was thinking of him just "I've been thinking it over in the last then, and the question had come sud-

LETTER PUBLISHED

For Benefit of Women who Suffer from Female IIIs

Minneapolis, Minn.—"I was a great sufferer from female troubles which caused a weakness and broken down condition of the system. I read so much of what Lydia E. Pinkham's Veg-etable Compound had done for other

suffering women I felt sure it would help me, and I must say it did help ine wonderfully. My pains all left me, I grew stronger, and within three months was a perfectly well woman.

1 "I want this letter made public to show the benefit women may derive from Lydia E. Pinkham's Vegetable Compound."—Mrs. John G. Moldan, 2115 Second St., North, Minneapolis,

minn.

Thousands of unsolicited and genuine testimonials like the above prove
the efficiency of Lydia E. Pinkham's
Vegetable Compound, which is made
exclusively from roots and herbs.
Women who suffer from those distressing ills peculiar to their sex should
not lose sight of these facts or doubt
the ability of Lydia E. Pinkham's
Vegetable Compound to restore their

Vegetable Compound to restore heir health.

If you want special advice write to Mrs. Pinkham, at Lynn, Mass. Shewill treatyour letter asstrictly confidential. For 20 years she has been helping sick women in this way, free of charge. Dea't hesitate—write at once.

Yet ever to be done anew; which come with every sun, O cares which come with every sun, Morn after morn, the long years

Morn and through.
We shrink beneath their paltry sway,
The irksome calls of every day."

Rice.

Rice is said by our best authorities to be one of the most nutritious, most easily digested of our foods. As to cheapness it might take the place of potatoes and should be more often served on our tables. The old method of scaking before cooking is not a good one. It should be washed, then dropped a little at a time into rapidly boiling water. When tender, drain and dry off in a hot oven, and you have a dish or ice to grace any table.

Rice makes a nice luncheon dish with cheese and seasonings. Bake as any escalloped dish. As croquettes, served with jelly, rice is a nice accompaniment to the meat coure, Rice In griddle cakes makes a pleasing variety; adding a cupful of cold, cooked rice to any griddle cake mix-

As stuffing for fowl it may be prepared by mixing four cups of cold, boiled rice and one cupful of bread crumbs; one onion chopped and browned in butter; meisten with milk, season with salt, sage, or other herbs, as desired. Add half a pound of sausage meat or salt pork. If neither of these last are used, add more butter to the rice. Rice flour is a delicate flour much

used in invalid cookery. Very nice bread and cakes may be made with it. A cheap quality of rice may be bought that is just as good as the higher priced, cheap, because the grains are broken.

The Appetizing Celery.

Celery is such a wholesome vegetable, with the medicinal quality which quiets nerves, that we should oftener have it upon our tables. Au naturel it is commonly served; but there are many ways of serving it alone or in combination with other foods, which give variety. This vegetable is especially adapted to combine with fruits and other vegetables, as salads. One of the prettlest and most satisfying salads is made of one or two sections of grape fruit, a little shredded celery, a few nuts and a teaspoonful of mayonnaise served in nead lettuce.

Celery cream soup is a favorite one made as many cream soups. The celery stalks are cut in Inch pieces, pounded in a mortar and then cooked to extract all the flavor.

Celery is very nice served cooked with a cream sauce or with hashed potatoes.

As sandwich filling with nuts and a

little mayonnaise.

Curried Celery. Cook one teaspoonful of chopped onion in one tablespoonful of butter until slightly colored; add two tablespoonfuls of flour; stir until it browns then add one teaspoonful of curry powder. When well blended pour over one cupful of stock, boil up. Add one tablespoonful of lemon juice and serve with a border of hot boiled rice.

Orange Compota.

Boil one-half cupful of water, two cups of sugar and two teaspoons of lemon juice five minutes. Dip the sections of grange in the syrup, dry, cool, and dip again three times. When hard place them in a glass dish, sprinkle with blanched, shredded almonds and serve with whipped cream.

WANTS HER BETZVILLE TALES

Philharmonius Bibbins and the Rug

By Ellis Parker Butler Author of Pigs is Pigs Etc. ILLUSTRATED By PETER NEWELL

psychologist we have in Betzville, but the strong Arabic words as he was one is plenty, for this isn't a very good place to study psychic phenomena. There are hardly any ghosts in the neighborhood, and those of a low, uninteresting quality. In any place where ghosts amount to anything you could get loads of cheap second-hand ones, all better than any native ghosts we have. So Phil is sort of forced to take up other branches than ghosts. If he lived anywhere else he would be a good psychologist, for he is a wholehearted believer. He will believe anything that has no sense. And he believes it thoroughly.

Last Wednesday an Armenian rug peddler struck town, and he had a lot of Oriental rugs of various qualities from had to worse, but he wasn't doing very well, because although Betzville is a center of culture and refinement it runs more to rag carpets than to the gems of the oriental loom. But the moment he called on Philharmonlus he saw he had a sale. The very sight of the rugs set all Phil's psychic brain-lobes palpitating like a six-cylinder motor, and he asked immediately whether the Armenian had a magic carpet. The Armenian immediately said he had. He undid his pack and first attempt of a uncultured rug mak-

Philharmonius Bibbins is the only, struck the rug. He says he uttered coming down, he thinks. He admits he didn't come down on the rug as gracefully as a man could after a little practice, for when his feet went out they went too high, thus raising them above his head so that he sat down on the rug with the back of his head, as you might say. But he says it makes little difference to a man who really has his heart in the magic carpet business how he alights. The main thing is to alight.

The moment he alighted he began to travel. He says he thinks may be he went to Bagdad, but a sleepiness came over him the minute he struck the rug, and he says it was mighty lucky, too, for if he had retained his senses the sight of the great depths below him as he sailed along would probably have made him dizzy, and while in that state of vertigo he might have fallen off the rug and been dashed to pieces. He said he seemed to be traveling for ages, and undoubtedly did go to Bagdad, or somewhere, for he had no recollection of being in Betzville, and that he is thankful that he did not have to stop in Bagdad, for everybody knows how hard it is for a man who does not speak pulled out a rug that looked like the the language to get along in those foreign towns, and he might have goter who never would be any good at I ten into serious trouble. A mad dog

But Just as His Foot Touched the Rug It Slipped and the Rug Carried Him Rapidly Downstairs.

rug making, and that had the general | might have bitten him, and he did not floppiness of a piece of cheese-cloth. The rug had a tag on one corner that said "\$6.75," but the Armenian raised It to "\$16.75" and then was sorry he hadn't made it "\$116.75," Philharmoni-

us took it so quickly. Philharmonius explained to us, Wednesday night at the lodge, just what a magic carpet is good for, and how you sit on it and say a few strong Arabic words and go floating off on it to any part of the world. When we asked him he said he had not been able to do much floating off yet, but that in a few days he would probably take some trips. He took one that same night.

He had the rug at the head of his stairs, and he started down, but just as his foot touched the rug it slipped and the rug carried him rapidly down stairs. It was quite a triumph for Philharmonius, but it was noticed by his wife that he said the strong Arabic words after he had started, and on the way down, instead of at first. Of course it wasn't much of a flight, just a trial trip, as you might say, but Philharmonius was mighty proud of it, and said it showed that the rug worked all right. He said that probably in a few days he would be able to sail away to Bagdad on it without

the least trouble. All the next day he sat on the rug in his bed-room saying strong Arabic words, but he didn't seem to get anywhere much. He felt that if he wanted to he could easily fly down stairs again, but he seemed tired of doing that, Flying down stairs that way gets so monotonous. So Philharmonius strongly urged his wife never to put the rug at the head of the stairs

About seven o'clock in the evening Phil went down stairs to supper, and after supper he saw a big windstorm coming up, so he rushed upstairs to close the bed-room windows, and as he dashed into the bed-room his feet here is a hopeless case indeed.

know the Arabic for "Pasteur cure."

Philharmonius says that the most wonderful thing was that after all that flight, and in spite of the incredible swiftness with which he must have traveled if he went as far as he may have gone, that rug landed him within a foot of where he started from. He says it was a wonderful exhibition of landing, and he wishes he had been awake to see it, but he wasn't; his spirit, as Philharmonius says, was in "psychic realms."

He says he never enjoyed anything in his life as he enjoyed that flight. but that he feels that he has proved that magic carpets really do all that is claimed for them and that the real student of psychic phenomena know when they have had enough. When a thing is proved it is proved, and it is foolish to go on proving it. So, in order, probably, that he may not be about Ben Johnson's height. They tempted to make any more flights, Philharmonius has put the magic carpet under the bed, and nailed it there. (Copyright, 1968, by W. G. Chapman.)

Bridesmaids for Kire.

Romance dies out in the world, if would almost seem, with the advent the professional bildesmaid. Whether for better or worse, however, she has arrived, and a bureau in London offers to supply her, or a dozen of her, suitably attired, at an hour's notice, for the sum of one guinea. Runaway couples might be expected to figure as the bureau's chief patrons, but it is said that the professional appears at formal weddings also, and seems to fill a want as clearly as does the paid guest who goes to dinners and dances given by the new rich. It would be interesting to know whether this type of bridesmaid feels emotion or catches a thrill of inspiration from the events in which she officiates. If the thought of the guinea leans in her mind no room for softer sentiment.

WORTH KNOWING.

Simple Remedy That Anyone Can Prepare at Home.

Most people are more or less subject to coughs and colds. A simple remedy that will break-up a cold quickly and cure any cough that is curable is made by mining two ounces of Glycerine, a half-ounce of Virgin Oil of Pine compound pure and eight ounces of pure Whisky. You can get these in any good drug store and easily mix them in a large bottle. The mixture is highly recommended by the Leach Chemical Co. of Cincinnati, who prepare the genuine Virgin Oil of Pine compound pure for dispensing.

by the sea. And father and mother, and 'Liza beth B.

I'd like, jest once more, to go down to the mill,

work on our wood-lot on Blue berry Hill, And hear, ringin' up through the

bushes beyond, The whirr of the skates on the old Schoolhouse Pond; Or go down at evenin and stand

where the lights Shine from the church winders on

prayer-meetin' nights, And wait in the cold till 'tis over.

and we Have met, and I'm walkin' with Lizabeth B.

Her name and her mother's was

'Lizabeth, so Folks added the "B" so 's to tell 'em you know;

And now, as I speak it, I see in the gloom. vision that lights up my lone-

some old room,-A pair of blue eyes in a sweet, winsome face.

A figger that moves like a picter of A soft little hand that could always

lead me.-For my heartstrings were held in 't

by Lizabeth B.

Oh, the walks home from singin'school, under the pine; The evenin's of skatin', her hand held

in mine: The long, moonlit sleigh-rides to-

gether we took. And the first kiss I got, in the dark, by the brook. Why now, even now, when I happen

to hear The jingle of sleigh-bells ring happy and clear,

I feel the old thrill as I felt it when

Said low, she'd be always my 'Lizabeth B.

The snow's lyin' white, like a soft counterpane, the graves in the churchyard

down you in the lane; lies round her stone, with its markin' of "Wife," As spotless and peaceful and pure

as her life: And soon 'neath its coverin', fleecy and deep,

They'll lay the old man for his last silent sleep; But I know, when I'm called by the

Father's decree, I'll find her a-waitin'-my 'Liza-

"Grandfather" Teitzen has been on a visit to the big Fort Calhoun colony in Wayne county and is much pleased. has nearly doubled in value in two years. One man up there still has 240 acres of corn to husk.

The Rev. Dr. Braden of Bellevue preached at Calhoun Sunday morning and Fort Calhoun in the evening and held communion service. He is enthusiastic over the prospects for Bellevue

00 The members of the Fort Calhoun The social affairs of our own and Cemetery association and all others interested in the proper care of the city of the dead are requested to meet at the Presbyterian church February

For Science

By FRANK H. WILLIAMS

Prof. Virginia Carruthers, head of the class in psychology, took up her businesslike fountain pen with determined fingers. Her pretty forehead was corrugated with a frown and her lips were drawn firmly together. Theu, with this serious, studious aspect, she

wrote the following note: "Dear Fred: I've something very important that I want to tell you. Can you meet me to-night about eight o'clock in the row of trees near the gymnasium? Please do not fail me. Yours.

Prof. Carruthers pensively regarded the note before she sealed and directed it to Prof. Fred Baker, head of the physical culture department of the college. She thought idly of how stalwart he would look as he opened the envelope, and then, with a suppressed sigh, she took up another sheet of paper. She must not think of Prof. Baker except as an aid for science. There had been a time-but that time was passed. She saw him almost daily now with that Miss Smith, the pretty new assistant music teacher.

Much as she hated to do it, it was now Prof. Carruthers' duty to bring Prof. Baker and Prof. Smith together. That day in the psychology class one of the serious pupils had asked if it was a fact that propinquity and moonlight make the thoughts of young people turn to love. Prof. Carruthers was unable to say for sure. None of the serious, studious class knew anything about it, or, at least, would say nothing about it. As a consequence, Prof. Carruthers had felt it her duty to be able to deliver an accurate report to her class at the next session. And, furthermore, the only young people in the college, outside the pupils, were Prof. Baker and Prof. Smith and herself. Much as she hated to do it, it was necessary that she try her experiment on these two. Perhaps she was really anxious to know how matters stood between the two.

Prof. Carruthers' next note was even shorter than the first. It read:

"Dear Gertrude: Can you meet me to-night about eight o'clock in the row of trees near the gymnasium? Important. Yours, FRED." Shortly before eight o'clock that

evening Prof. Carruthers hid herself in the shadow of the gymnasium, just out of the moonlight, and waited developments. In a few minutes she discovered Prof. Baker walking hastily toward the row of trees. In a moment he was near her, and, despite her attempt to be calm and scientific, her heart beat faster and faster. But Prof. Gertrude Smith, where was she. How could Prof. Carruthers know that Prof. Smith had read the note with a sniff of disgust and thrown it into the waste basket without a further thought?

Prof. Baker and Prof. Carruthers both became annoyed and restless at the delay. The physical culture instructor strode back and forth nervously while the pretty psychology teacher knotted and unknotted her tiny handkerchief. At last, in an unguarded moment, the girl peeked around the building to see if the assistant music instructor was coming As she did so she thrust her head into the moonlight. In a moment, stalwart

Prof. Baker ran to her. hoped it might be you! I hoped I had made an impression on you, my cold,

beautiful little professor!" Suddenly Prof. Carruthers discovered that in some manner Prof. Baker had managed to envelop her in a bearlike embrace. She struggled ineffectually.

"Oh, oh!" she cried. "What will Prof. Smith say?"

Prof. Baker laughed, then whispered to her as he drew her closer: "I'll tell you a secret, honey-1've been walking around with her for days trying to make you jealous!"

Prof. Carruthers' report on the ef fect of propinquity and moonlight upon young people of the opposite sex was delivered to the class the next day with a great many unnecessary blushes, it seemed to the serious earnest pupils. And even then it was not at all satisfactory, for Prof. Carruthers advised each of them to con duct individual experiments of their

Birds' Flying South. Flocks of migratory birds are pass-

ing over the city nightly now, going south from northern points, where they have spent the summer. A great many of these birds, among them the robin and the blackbird, come to South Carolina from the Blue Ridge and other mountains, where they nest in the summer, and other birds are now en route to points farther south —Florida and the islands \circ off the coast. The journey south is begun about this time each year, and the birds all leave the northern points before the severity of winter there has His sons are doing well and their land set in. The mild climate of the south in winter suits them better, and they come here in great droves.-Anderson (S. C.) Mail.

Osler in Hard Luck.

Dr. William Osler is said to have been practically driven out of Baltimore by the rule forbidding a physician to accept a fee from a brother craftsman. Dr. Osler's fame attracted other physicians from all over the country, who were anxious for his advice, and as a result his day's work at the university was rendered almost impossible. Then came the invitation from England with an ample competence and abundant leisure.

It was not until about which leads to it was built some time 26 years ago that the discovery was after the passageway to the missions was finished.

rounded by little villages of Mexicans.

There is much speculation as to the original object of the system of tunnels. It is considered likely that Indian labor was used to dig the tunnel, at his home, on South Presa street, and if this is true it could not have

when the picks of the workmen struck; been kept a secret from the tribesmen, few strokes of the pick made an openwas exposed to view. Mr. Teborah and the laborers who were digging the well descended into the opening and found that it was not a cave, as they supposed, but a tunnel, with a width of about five feet and a height of seven feet. The concrete layer of two or three inches in thickness formed the walls and arched roof, while the floor or bottom of the passageway was of dirt.

The funnel was explored by Mr. Teborah and others for a distance of several hundred yards in both directions. Further progress was blocked by cavings which had occurred, filling the passage with dirt and debris.

One end of the explored tunnel crossed under the San Antonio river. In order to get a safe distance below the bed of that stream the tunnel was lowered several feet at the crossing point, flights of stone steps connecting the two levels. It is thought that the tunnel runs in almost a direct line between the blockhouse on the north to the Conception mission on the south, by the way of the Alamo, and if this is correct the river crosses above it no fewer than a dozen times.

The opening into the tunnel in the Alamo is situated in one of the cells of the monks. Centuries of disuse have gotten the size; but he wears a fifteen caused if to fill with debris and no collar, so he would take a twenty-two effort has ever been made to clean it hat, wouldn't he?

a hard substance that proved to be It is considered probable that the real adobe plaster, such as the Franciscan object of this tunnel connecting some, fathers taught the Indians of this sec- if not all, of the missions along the tion to make in the early days. A San Antonic river was to afford the monks an opportunity of visiting each ing in this concrete wall, and a cavern other without the knowledge of the Spanish military and civil authorities, who made their headquarters in San Antonio.

If this theory is correct the monks did not lead the strict life of a recluse that has heretofore been generally supposed. Instead of being alone in their cells, they were probably off on a visit to some of their brothers at one of the other missions without the outside world being any wiser.

An exploration and rehabilitation of this ancient system of tunnels might lead to many interesting discoveries, it is claimed. In the imaginative minds of the people the treasure room of the Franciscan monks is situated at some point on this line of the underground passageway, and perhaps it may still contain a store of great wealth. The Mexican inhabitants of the little village situated adjacent to the missions have a superstitious dread of the mysterious tunnel. None of them could be induced to enter the dark and grewsome passageway.

EIGHTEEN YEARS AGO HE HAD LESS THAN 3 DOLLARS

HE IS NOW-ONE OF THE RICHEST FARMERS IN SASKATCHEWAN, CENTRAL CANADA.

'Arriving in Canada in 1891, just Mighteen years ago, E. A. Guillemin could speak but his native language. He is a Frenchman. He had but a little over two dollars in his pocket, thus being short over seven dellars of the ten dollars required to secure entry for a homestead of one hundred and sixty acres. He eventually borrowed the money and near Forget, Saskatchewan, he started life in Canada on the homestead in which to-day he is the fortunate possessor of fifty quarter sections of land, or 8,000 acres.

Now Mr. Guillomin did not acquire all these acres as a result altogether of his farming operations, which were extensive. He looked with satisfaction upon what he was doing on his limited area, he was saving, careful, and had foresight. Surrounding land could be had for about \$3.00 per acre, and he continued buying as his savings would permit, until now he has fifty quarter sections, some of which he can sell at \$25.00 per acre.

Threshed Fifty Thousand Bushels. This year he was engaged in threshing on his place for 541/2 days. He threshed out 50,000 bushels of wheat, of which he sold 34,000 bushels, one train load, at a price varying from 84 to 87 cents per bushel. He has on hand still 16,000 bushels. In addition to wheat he raised 30,000 bushels of oats, 7,000 bushels of barley and 500 bushels of flax. He owns 104 horses and a number of cattle, but since the construction of the railway he has been engaged chiefly in raising wheat. This year he bought his first threshing machine, paying for it the sum of \$2,100. He estimates that the machine earned for him this fall \$3,000, thus paying for itself in one season and leaving \$900 to the good. The weather was very propitious for farm threshing, not a single day being lost in the two months which were spent in this work. The wheat averaged 23 bushels to the acre and graded No. 1 and No. 2 Northern. In the past nine years seven good crops have been harvested on this farm. For six successive years the returns were excellent, that is in the years 1901, 1902, 1902, 1904, 1905 and 1906. In the two following years there was a partial failure. As the years have passed the quality of the buildings on the farm have been steadily improved, and are now as good as can be found in the district. About \$10,000 has been invested in this way by Mr. Guillomin. The farm consists of 6,880 acres, of which about 6,000 acres were under

Molasses Makes Tobacco Burn Tongue

WASHINGTON.—"Say, I'll have to drop this brand of smoking. It nearly burns the tongue off me. What's the matter with it?" said the smoker to a Washington tobacconist.

"It's been made up with a little bit too much molasses," said the tobacconist. "The tobacco intended for winter sale always has a little more molasses in it than summer tobacco.

"They've several reasons for adding molasses to tobacco," he continued, coming back to the end of the counter. "In the first place, if the leaf wasn't made just the least bit sticky it would be apt to crumble to a very fine powder that would choke up your pipe, especially in winter, when tobacco gets extremely dry.

"So when they add a little molasses to the cut leaf they make a thin, sticky film over it. This keeps the tobacco in good shape and the molasses locks the nicotine in the body if the leaf as well.

"Nicotine, you know, will evaporate and be lost if the tobacco is exposed long enough. Then when the nicotine is gone you might as well smoke the can feel with your fingers. cabbage leaf the comic papers talk about so much about for all the satisfaction you get.

together with molasses and then being burnt you're actually getting pressed into a block. If you'll take your tongue parboiled."

a plug of smoking and put it in a damp place outside somewhere and then come back after a week or two to look at it you'll see a pile of square out leaves, perhaps five or six inches high. This is because the tobacco will have lost the molasses gine, not from the molasses having been washed off the leaf, but from its having fermented into vinegar.

"The film of molasses keeps the leaf moist and pliable. This is because of the sugar crystals in it. If you've ever noticed salt in wet wearher you'll often have seen how it gothered the wet. The sugar crystals ac: exactly like the crystals of salt, but to a less degree.

"When you fellows that smoke pipes say that tobacco burns your tongue you're away off. The tobacco hasn't a thing to do with it. And your tongue isn't being burnt, it's being scalded." "From the moisture in the tobacco?"

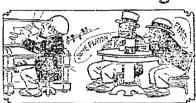

asked the customer. "Partly." said the tobacconist, "but

mostly from moisture you'd not think was in the tobacco. There's a great deal of moisture in the little sugar crystals over and above what you'd expect they might collect from the air. "When you melt this sugar in your

pipe each crystal dissolves first in a little pool of water, and makes material for steam, in addition to the free water in the tobacco that you

"This hot steam makes a regular steam heating system between the bowl of your pipe and your tongue. "Plug tobacco is simply leaf glued and while you think your tongue is

Put into a saucepan the sugar and butter and allow both to get brown. then add the flour, and fry it till in begins to look yellow, then add the onion chopped and fry it pretty brown add then the salt and pepper, a dust of red pepper, the nutmeg and the lemon and return it to the pan.

Add the sweetbreads and the mushrooms, and cook gently for half an hour. Serve hot with groutons of bread or pieces of pastry round.

KEEPING THE PLANTS MOIST

Condition That Is of the Utmost importance for Their Well Being.

Every one who has ever tried to garden indoors knows the difficulty in our bothouse of providing enough moisture for the plants to keep them free from insect pests such as rea spider and aphis, which greatly do abound in a hot dry atmosphere.

This difficulty is overcome in several ways. Spraying every day or two is excellent. Be sure that the water gets on both sides of leaves

Weekly baths in the tub. or sponging with soapy water are also necessary.

Some people keep kettles of water on their radiators to give dampness to the air; others every day or so, wring out a sheet from cold water and hang it near the plants that they may profit by the evaporation.

One woman has hit upon even a simpler plan to give her plants the necessary moisture or steaming. Every other day she fills a wide mouthee bowl with boiling water, into which she dips a flat iron that has been made very hot. This at once creates a dense steam which is beneficial to all flowers affected by insect pests plant stands as possible.

Currant Loaf. Two cups bread dough, one egg. half

cup sugar, pinch of sait, two tablespeeds preferred melted shortening, one teaspoon flavoring or spice, one cup floured currants, one rounding tea spoon baking powder. Beat the dough egg, sugar, sait and shortening together in bread pan until you cannot see streaks of dough, with wooden spoon, then add currants and extract and sprinkle in baking powder. "CROPE THROUGH A CRACK"

Uncle Eph Had at Least One Idea of How His Hogs Might Have Got Away.

Uncle Ephraim had two hogs, which he kept in a pen at the rear end of his little lot. They were of the razorback" variety, and although they were fed bountifully with kitchen waste, it seemed impossible to put and fat on their attenuated frames. One morning when he went out to feed them they were not there. They had disappeared, leaving no clew as to the manned in which they had made their escape.

"What's the matter, Uncle Eph?" inquired a neighbor, noticing the deep dejection with which the old man was looking down into the empty pen. "My hawgs is done gone, sah," he

answered. "Stolen?"

"No; sah. I don't see no signs dat anybody tuck 'em."

'Did they climb out ever the top?" "No, dey couldn't 'a done dat."

"How do you think they got away?" "Well, sah," said Uncle Ephraim, tasty with fresh sliced fruit. "my 'pinion is dat dem hawgs kind o' raised deirselves up on aidge an crope through a crack." - Youth's Companion.

Nil Desperandum.

Percy Parkington rose and brushed the dust from his knees. Then, drawing himself up to his full height, he gazed resentfully upon the form of Miss Muriel Muggins, who nonchalantly fanned herself the while.

well! You have spurged me, it is form the mixture into tiny croquettes, the heart after ascending the stairs. true! Indeed, you have spurned me twice! But, though despair eats my roll in fine cake crumbs. Drop into heart, I shall not die! I mean to go into the busy world. I will fight! I will win! My name shall become known, and my riches shall become envied-"

"Pardon me for interrupting you, accomplished all that, you may try me again."-Lippincott's.

Why "Potter's Field" for Beggars.

It is not because the beggar fails to make money that he finally lands in the potter's field. "Any good, industrious beggar," says Mr. Forbes, "can and does make a great deal more money than the average workingman." But the trend of the beggar is downward, and in the end he is pretty sure to become a hopeless wreck and a

FORMULA HINTS FROM ABROAD UNCOOKED MEAT

SOME FOREIGN RECIPES WORTH REMEMBERING.

Appetizing Dishes That Are Served in New York Restaurants That Cater to the People from the Home Land.

Little home restaurants kept by oreigners in New York furnish abundant inspiration for the daily menu at home. At a small home restaurant, where all the cooking is Dutch, kept by an enterprising Hollandaise, a new kind of meat balls excited much curiosity among the guests.

According to the proprietress, these were made by winding strips of steak (raw) around stalks of celery and then simmering the balls so formed in lentils (previously washed and soaked over night). The juice from the meat mingles with the lentils and forms a tasty sauce which is served around the unusual meat balls.

At a small cafe kept by a German woman and patronized by teachers, social workers, etc., one especially enjoys a simple salad possible to any home caterer. The lettuce for this is shredded fine and on the lettuce is placed two tiny egg-shaped balls of cream cheese. Finely chopped boiled beets make a pretty contrasting color of this generation. I believe that scheme, adding at the same time a piquant flavor, and over all is sprinkled a tasty cream and oil dressing.

In this same German restaurant the tomatoes for tomato salad are always shaved wafer-thin with a sharp knife and come to table on shredded lettuce.

A dainty touch given to a homely dessert in the same place is chocolate corn-starch molded in individual starshaped molds, surrounded by a thin custard and decorated with a spoonful of currant jelly which gives an unusual additional flavor. Vanilla or almond flavored cornstarch molded in individual forms is decorated with candied cherries and served with custard around it.

Rice molds with small variations from time to time make a dainty and inexpensive dessert, which will not be associated in the family mind with prosaic rice pudding. The foundation of the recipe, upon which the inventive housekeeper can ring in many little changes, is as follows:

Wash thoroughly two ounces of rice in hot water and put into a double boiler with a pint and a half of milk and six lumps of sugar (or sweeten the milk to taste). Simmer until the rice is quite soft and creamy, the milkhaving been entirely absorbed. Now rub through a wire sieve and with it fill some little dariole molds which have been rinsed in cold water.

Serve with a fruit sauce, or before molding mix with the rice a small quantity of chopped nut meats and serve with cream. They are also very

Plum Pudding Croquettes.

Heat one pint of milk lukewarm, add a heaping teacupful of bread crumbs, cover and put where it will keep warm but not cook for half an hour. Add to it two well beaten eggs, a half cup of brown sugar, a pinch of salt and a half teaspoonful each of nutmeg, cloves and einnamon and one cupful of chopped fruit-rasins, citron and Dip each into slightly beaten egg, then smoking fat and cook golden brown. Serve with vanilla sauce.-To-day's Magazine.

Lyonnaise Potatoes.

Take one pint of cold potatoes; one Mr. Parkington," interjected Miss tablespoonful of butter; one table Muggins, "but when you shall have spoonful of minced onion; one tablespoonful of chopped parsley; sait and pepper to taste. The potatoes should be rather undone to produce the best results. Cut them into dice, and seaon with salt and pepper. Fry the rion in the butter until yellow, add the potato, and stir with a fork until both sides are of a nice brown, being care: | not to break the votatoes. A little more butter may be required. as no vegetables absorb so much butter as potatoes. When done, turn the potatoes out upon a hot dish, sprinkle the parsley over the top, and serve hot.

Molasses Cake.

Stir together one cupful of molasses, one-half cupful of a war, four tableof hot water with a waspoonful of soda dissolved in it, three cupfuls of flour, a teaspoonful of cinnamon, onehalf teaspoonful of cloves and the yolk of one egg. Bake in four 'ayer cake tins and put chocolate icing between the layers.

Meat Croquettes

Chop fine two cups of cold enoked meat. Season with salt, pepper and a dash of cayenne, two unbeater eggs and a cup of fine bread crumbs with a teaspoon of baking powder mixed through. Shape into small balls. Dip in beaten egg, then in bread crumbs and fry in boiling fat.

Crisp Calery.

Celery should be allowed to lie in cold water, to which a little salt has been added, for an hour before it is required for the table. This will make it very crisp.

Feather Cake.

One cup sugar, one tablespoon meltad butter, half cup milk, one cup flour, one egg, one teaspoon baking powder, pinch salt. Flavor to suit taste.

VERY DANGEROUS

FEARFUL SUFFERING CAUSED BY EGGS OF PARASITE WHICH IT MAY CONTAIN - STATE-MENT BY A PRIEST.

Omaha, Neb., Feb. 2.-Probably the most unusual feature of the excitement that has been created by L. T. Cooper's visit to this city is the removal of parasites or tape worms by his preparations.

During the early part of Cooper's stay in Omaha individuals who were taking "New Discovery," as it is called, brought either to himself or to physisians throughout the city immense parasites that had left the system after using the medicine.

Many-of these people were frightened, and cases of this sort became so numerous that Cooper finally made the following statement for publica-

He said: "In every city I visit these things are brought to me within a few days after my medicine is sold in the city. They are what is known as the tape-worm, and grow to an enormous size.

"Few, indeed, realize how prevalent these creatures are. I think I have been the first to demonstrate what a large factor they are in the poor health fully one-half of the chronic stomach trouble now so universal is caused by these parasites.

"Individuals may have them for years and not be aware of the reason for their continued ill-health, but attribute it to many different diseases, when in reality one of these creatures is robbing them of their vitality.

"These parasites are taken into the system in uncooked food or raw meat, in the form of an egg, which hatches almost in mediately. People suffering from them experience a feeling of lassitude and are extremely nervous. The action of Cooper's 'New Discovery' seems to be fatal to these great worms, and in most cases a few doses of the medicine drives the creatures from the system. I will have hundreds of them brought to me before I leave the city."

This grewsome prophecy has been amply verified, for not only hundreds but thousands of Omaha people have been relieved of some of these fearful parasites since taking Cooper's preparation, and the entire city has been aroused by the fact.

Some of these parasites are of such enormous size as to startle the imagination. The statement of Father John Baptist Arnolis, one of the best known and best beloved priests in this section of the country verifies His statement, among others given to a reporter, was as follows:

"For years I suffered from what I thought was a general run-down condition of the system caused by stomach trouble. I felt extremely tired all the time, and it was a great effort to attend to my duties. I would wake up in the morning feeling as worn out as when I went to bed. If I stood for any length of time I would have pain in the lower part of my back, and would have to sit down.

"I was very nervous and depressed in spirits, and was troubled with dizzy spells. I would see spots before my eyes when I stooped over and raised "Very well, Miss Muggins," came in currants. Mix and set aside until up quickly. I had a very irregular aphitter tones from Percy. "Oh, very cold. Lightly flour the hands and petite, and would have palpitation of

"The talk about Cooper's preparations was so universal that I decided to try some, although I do not take patent medicines as a rule. I took four doses of the 'New Discovery' as it is called, and a tape-worm about sixty feet in length left my system.

"I am very thankful for this great relief, and now I know what has been the cause of all my suffering."

The story of Father Arnolis is a fair sample of the experience of an astonishing number of Omaha people. and Cooper's preparations are selling here in immense quantities. It is now estimated that he has sold one hundred thousand bottles to date in this city alone, and the sale is still increasing.

Jim's Cost a Dollar More. Richard Le Gallienne, the noted poet, was entertaining a group of magazine editors at luncheon in New

York. To a compliment upon his fame Mr. Le Gallienne said. lightly:

"But what is poetical fame in this age of prose? Only yesterday a to-day at breakfast time, the boy again presented himself.

"'Will you give me your autograph, sir?' he said. "'But,' said I, 'I gave you my auto-

graph yesterday.' "'I swapped that and a dollar.' he

Broiling-Fish, very thin, five to eight minutes; fish, thick, 12 to minutes.

Frying-Slices of fish, four to six isn't it?" minutes; small fish, one to three minutes; smelts, one minute.

FOR THE IDEAL DOUGHNUT

Ingredients Must be Mixed in Proper Proportions and Care Taken in Cooking.

One egg, half a pound of flour, one tablespoonful of sugar, quarter teaspoonful of butter, one yeast cake, two tablespoonfuls of milk, half a tenspoonful of jam for each doughnut, a little grated lemon rind and some fat for

Rub the butter into the flour, add lemon rind, salt and sugar. Warm the milk and pour over the yeast, adding one teaspoonful each of sugar and flour, cover and set in a warm place for ten minutes. Beat up the egg and mix it with the yeast and milk, pour this into the flour and knead like bread, until it leaves the hand quite

Set in warm place to rise for one hour; then roll out one-eighth of an inch thick, cut in rounds about two and a half inches in diameter, lay half a teaspoonful of jam on half of the rounds, wet the edges slightly, cover with the remaining half of the round and seal the edges thoroughly.

Drop these, a few at a time, into smoking hot fat, fry two minutes or until risen about one and a half inches thick and brown, drain on white paper, and sprinkle with sugar.

Sago Puddings.

With Apples.-Wash thoroughly one un of sago, put in double boiler one quart of cold water. Cook over slow fire until clear. Have ready pared and cored whole enough apples to stand closely in bottom of pudding dish. Their size will regulate number: and fill apples where cores were cut out with white sugar. Can flavor as desired. A few whole cloves stuck in apples are nice, but lemon peel, or orange peel, cut very fine, is nice also. l use first one flavoring, then another. As soon as sago is clear pour it over the apples and bake in quick oven until the apples are done. Serve with rich cream.

Without Apples.-Prepare sago as hefore, using a little less water. When clear, pour into pudding dish, and nour on top a custard made of three eggs and pint of rich milk. Bake slowly until custard is set. This is best served cold. Makes an excellent dessert.

Currant Loaf.

Two cups bread dough, one egg, half cup sugar, pinch of salr, two tableschoolboy came and asked me for my spoons preferred melted shortening. autograph. I assented willingly. And one teaspoon flavoring or spice, one cup floured currants, one rounding teaspoon baking powder. Beat the dough, egg, sugar, salt and shortening together in bread pan until you cannot see streaks of dough, with wooden spoon, then add currents and extract and sprinkle in baking powder. Do answered, for the autograph of Jim not forget that. Stir or beat well. Have two pans the same size, put the mixture in one and place it directly in the oven to bake. When commencing to brown turn the other one, hot, over it. Bake about three-quarters of an hour, so it will be a nice brown all round.

Apple Slump. Pare, core and quarter sufficient ap-

ples to fill a buttered quart pudding dish two-thirds full, sprinkle with sugar, dust with half a teaspoon each of grated nutures and cincamon and squeeze over the whole the juice of half a lemon. Sift together 112 cups of flour, 142 teaspoons baking powder. 1 saltspoon of salt and 2 teaspoons of sugar. Rub in 3 teaspoons of butter. moisten with half cup of milk, pat cut the dough, roll lightly, place it over the apples and bake for about 30 min-

THE NEW COIFFURE,

"My hair's exactly like a turban, "Exactly. You can even take it off."

SCRATCHED SO SHE COULD NOT SLEEP

"I write to tell you how thankful I am for the wonderful Cuticura Remedies. My little niece had eczema for five years and when her mother died I took care of the child. It was all over her face and body, also on her head. She scratched so that she could not sleep nights. I used Cuticura Soap to wash her with and then applied Cuticura Ointment. I did not use quite half the Cuticura Soap and Ointment, together with Cuticura Resolvent, when you could see a change and they cured her nicely. Now she is eleven years old and has never been bothered with eczema since. My friends think it is just great the way the baby was cured by Cuticura. I send you a picture taken when she was about 18 months old.

"She was taken with the eczema when two years old. She was covered with big sores and her mother had all the best dectors and tried all kinds of salves and medicines without effect until we used Cuticura Remedies. Mrs. H. Kiernan, 663 Quincy St., Brooklyn, N. Y., Sept. 27, 1909."

Luck.

"Does you believe it's lucky to see de new moon over you right shoul-

"Sho I does," replied Mr. Erastus Pinkney. "Dese here stormy days you's lucky to see any kind of a moon anyway."-Washington Star.

"The Blood is The Life"

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgement are effected, and many an evil deed or impure thought may be = directly traced to the impurity of the blood.

Foul, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It enriches and purifies the blood thereby curing, pimples, biotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.

In the cure of scrofulous swellings, enlarged glands, open eating alcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of 'Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by inclosing fifty cents in postage stamps to Dr. R.V. Pierce, 663 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottlewrapper, the same being attested as correct under oath.

Dr. Pierce's Pleasant Poliets regulate and invigorate stomach, liver and bowels.

We are Not Going Out of Business

On the contrary our business is getting larger every day. But the last of the season has caught us with thousands of dollars worth of all kinds of Mdse, that must be sold at once.

Our Loss is Your Gain

We have hundreds of items that must be turned into cash Can you afford to miss this opportunity? Note a few of these prices and compare with what others are asking for the same thing.

At 9 O'clock Saturday Morning, Feb. 5, 1910

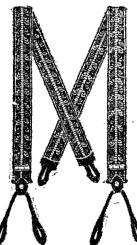

We fire the opening gun which marks the greatest money saving **Clearing Sale** this community has seen in years. Large and lucky purchases of new goods are included in this reduction,—all regular stocks are bargain priced for a big sweeping clearance. We are clearing all departments—we must have room for new goods that are already arriving. You can't afford to miss one day of this big event, because when you compare values, we are most certain of your business.
