Colored Americans And Employment

The Race Should be Given Opportunity to Earn Livelihood in Trades and Business Places.

STOREY MAKES EARNEST PLEA

Patrons of Retail Stores Express Willingness to be Served by Competent Colored Clerks.

Boston, Mass., May 5.—Speaking before the New England Dry Goods Association at the Boston City Club recently, Moorfield Storey urged fair play and greater chances for Negroes in industry and business. He said he wished to appeal to the American sense of justice in behalf of 10,000,000 fellow citizens who were now denied the opportunities for which their abilities qualified them and for no other reason except race prejudice against their color.

Americans of Long Ancestry.

"They are Americans as we are, he said, "and they are Americans of much longer ancestry than some of us. The South owes them a debt, but we as a people owe them the greatest debt one body of men can owe to another, for we brought them here against their will, kept them here as slaves and denied them the ordinary rights of human beings.

"Colored men are cut off from the mechanical trades, from positions as stenographers, and from other occupations, so that whenever they come up they find a wall against them. In every corner of this land these people are subjected to the gravest injustice.

Should be Given Chance.

"There should be a public opinion condemning that sort of thing, and every American is bound to help create that public opinion. You are bound to see that the Colored people have an opportunity to live, work and show what they can do. The purchasing power of the Colored people in this community is very desirable. You will find that the prejudice you are afraid of does not exist, and that some of you could take Colored salesmen into your employ.

To each member of the association present was furnished a copy of the petition recently signed by about 1500 citizens setting forth that: "We, the undersigned, purchasers in the retail stores of Boston and vicinity, wishing to increase the industrial opportunities of our Colored fellow citizens, hereby express our willingness to be served by Colored employes wherever found competent for the duties assigned to them. We would ask that opportunity be given to Colored applicants for positions to demonstrate their fitness for employment."

Nebraska's 803 state banks contain \$114,487,652.98, belonging to 382,222 depositors.

Something To Make You Think

"THE CATHOLIC SIDE OF IT"

Recently a Mr. Scott of California appeared before a large audience in Pittsburg, Pa., with an earnest and impassioned plea for fair play for the Roman Catholic Church. He made a most favorable impression upon the large mixed audience which gave him, as they should, most respectful attention. The speaker claimed that the Roman Catholic of America is equally as loyal as his brethren and co-religionists fighting the cause of war-ridden Europe.

The Pittsburg Courier, one of the best of our many exchanges, after quoting some of Mr. Scott's most striking passages, makes the following suggestive comment:

"His determination to present his church in the correct light; his unbiased appeal for fair play and righteous dealing on the part of man with man, offers to our group an important lesson. We hear ourselves attacked every day; we see instances of flagrant prejudice on every hand; we see ourselves lynched and trodden down by unfair and biased men, and not infrequently we conclude that further protest is useless, worthless and of no avail.

The Catholic brother does not view his situation with any such resignation. He is determined to present the true picture of his church and brother. He will not rest quietly under the stigma; he rises to the defense of his own. If the Catholic church sees the need of a country-wide campaign in their own interest, seeking to correct false impressions and biased views created by unscrupulous men and women,—if they see their salvation not in complacency but in a vigorous assertion of their rights, how much more should our group rise to the emergency and brand as false the accusations, the thrusts, the insults multiplying daily against us? Are we any less men than the Catholics? Are we less concerned with false representations than they? Shall we sit forever silent while our opposition accumulates to proportions beyond human control? We believe in correcting every false impression, every untrue statement, every wrong committed, until the country shall know that the worm will turn, regardless of his color.

And the same arguments offered by Mr. Scott are at our disposal. We have served the country with undisputed loyalty. We have followed the flag of our country to a hero's grave in every war this country has ever known. We have thrown ourselves before the enemy without reserve just as frequently as have the Catholics. And if they hold up their loyalty as a just and complete argument for their rights, why should we fear or hesitate to spread our record before the world? Loyalty knows no color, and what is defense for the Catholic is defense for us. Let us not be ashamed to be heard, nor fear to give the world our complete defense."

NEGRO BANKS AND BANKERS

Indicate Progress in Racial Evolution and Attest Growing Race Confidence.

We told you last week of the Greeks and Italians who cater to the trade of the Colored people of Memphis as restaurant keepers and grocers. But practically monopolizing this trade not only in Memphis but in other cities, north and south, is not a peculiarity of these people here named, but seems to be characteristic of other thrifty groups of foreigners. Take the Jews, for example. What shrewd business men they are; and how they do go after the Gentile dollars, and among the Gentiles, "the lusty sons of Ham"—shocking! isn't it, how familiar we are with snatches of song from popular Negro composers?—hold important rank when it comes to helping to fill the coffers of "the shrewd sons of Shem."

Some Alliteration.

How do you like this last as an example of alliteration? We pride ourselves on believing that it is equally as good as many you would find in Coleridge's "Rhyme of the Ancient Mariner." Exempli gratia, (E. G.) for short, which means "by the way of example." "Alone, alone, all, all alone." "Yet she sailed softly, too." We really believe that "the shrewd sons of Shem" is equally as good as the examples taken from Coleridge. Don't you think so?

But to return to business conditions. The Jews do a good business among our race, as grocers and dry goods merchants in the cities of the North, and also in the South, as well as Greeks and Italians. The moral of what we are here setting down, and please bear in mind that there is "naught set down in malice" here in these articles, is this: that we as a race should be more keenly alive and alert to the business opportunities which lie within our grasp than we are.

Growing Race Confidence.

Do not get the impression from what we have said that the race in Memphis is inactive in business matters. They are not inactive by any means. They are doing much; but they could do more. We are doing considerable in a business way in Omaha and other cities, but we could do so much more, and we will do much more everywhere and every way. Never doubt it. Our rainbow of promise mounts high in the sky. We are developing race-consciousness every day and with it race confidence, which

General Race News

M'VEA AND JEANETTE WILL MEET AT NEW ORLEANS.

New Orleans, La., April 27.—Sam McVea and Joe Jeanette, two of the best known Colored heavyweights in the game for many years, will meet in a New Orleans ring in the first of a series of elimination bouts for the Colored championship of the world.

The contest will be staged by Dominick Tortorich at the New Louisiana Auditorium, about the middle of May, according to the announcement of Promoter Tortorich last Monday night, and after it is finished, the winner will be matched with some of the other big Colored fighters, probably Harry Wills. Then the situation will again be narrowed down to a contest for the winner of this bout and the "little brown man from Boston," Sam Langford.

This is the program planned at present. The first match is already lined up.

VARDAMAN AFRAID OF COLORED SOLDIERS

Washington, May 5.—Senator Vardaman, in discussing in the Senate recently the National Guard section of the army increase bill, sees danger to the South in the authority that is given the federal government. In discussing this phase of the question, he said in part:

"I do not know who is going to succeed the present occupant of the White House. I hope he may succeed himself, but I would not hazard a prediction of what is going to happen. If a man should be elected President who is color blind on the race question and whose olfactory have become so benumbed that he could not distinguish between a white man and a Negro, and who is so politically antagonistic to the South that he would be willing to use the power conferred upon him by Section 56 of this bill for partisan political purposes, he could order Negro regiments to mobilize for military training in every congressional district of the state of Mississippi.

TWO DELEGATES FROM NEW JERSEY.

Atlantic City, N. J., May 5.—In the Presidential primaries held April 25, the surprise in the voting in the city was the probable election of two Negroes, James A. Lightfoot, a lawyer, and W. F. Cozart, a head waiter, to the National Republican convention as delegates from the Second district over County Clerk Harry L. Knight of Burlington County and Richard M. Moore, a Bridgeton glass manufacturer.

The heavy vote was due to the efforts of Mayor William Riddle in a battle with City Commissioner Harry Bacharach and his brother, Congressman Isaac Bacharach. Out of twenty-five precincts in the city the Negroes carried twenty-one. The other sections of the district will likely show their defeat.

Halifax, N. S., April 27.—"The Birth of a Nation" has been barred after a delegation of about forty citizens of both races waited on the provincial government. Several showed that the picture failed to portray history as it should and showed the increase in prejudice wherever it went.

COLORED BOYS MAKE ATTRACTIVE TOYS

Chattanooga, Tenn., April 27.—Small Colored boys at the Chattanooga Avenue School have become so proficient in the art of toy-making that keen interest is being shown in their work by persons who have seen samples of it.

Many orders for doll furniture and bric-a-brac have been filled for persons out of the city, as well as in it, it is said, and only lack of material and proper tools prevent their doing a big business in this line of work.

Toy making was taken up at the beginning of this school year, there being a teacher at the Chattanooga Avenue school that was interested in manual training and willing to teach the art free. A limited amount of tools was furnished by the department of education, and from this start what probably will be the nucleus for an industrial school for the Negro race in Chattanooga has resulted. The need for manual training in the Colored schools appears to be urgent and since such aptness in the use of the hammer and the saw has been shown by these little boys of the fifth, sixth and seventh grades, that department probably will be added to the schools at an early date.

COMMENTS FROM RACE PRESS.

The Issue.

Of course, as American citizens, concerned about the general welfare of the country, we are interested in preparedness and the tariff and our foreign policy and all the other more or less important issues which are being considered and discussed in view of the coming Presidential campaign. But for us there one issue which stands out above them all. We want to know where the man for whom we are asked to cast our votes stands on the question of equal civil and political rights for the Negro. We can overlook his views on pacificism or preparedness, on free trade or high tariff, on swallowing our words or fighting Germany and Mexico combined, if he is right on the one issue.

This issue is forced upon us. We regret that it is so, but it is, and upon that issue we must stand. Let Colored voters everywhere use every means in their power to give this issue influence in the coming campaign. —New York Age.

PLAY GROUNDS OPEN.

Wilmington, N. C., April 27.—The committee on recreation and amusement of the Social Service and Civic Improvement league is securing a number of playgrounds for the Colored children. They have purchased a coaster-slide, ocean-wave, merry-go-round and other amusements for the children.

COLORED BABY TAKES PRIZE

At a recent baby show at Tecumseh, Neb., the infant of Mr. and Mrs. Walter Paires, the only Colored family in the place, scored six points higher than any other baby exhibited. Dr. Davies said that the Paires baby was an almost perfect specimen of babyhood physically and one of the finest types he had ever seen.

IMPROVISED BURIAL SERVICE ON BORDER TOLD BY BINGHAM

Colonel Gonzales S. Bingham, in charge of the local army quartermaster's depot, has received the following description of the burial of one of the Villa raiders who was shot and killed at Columbus, N. M.

A platoon of American Colored troops had been detailed to inter the dead Mexican. A grave has been prepared, the body placed in it and the soldiers were about to cover the corpse with dirt when the non-commissioned officer in charge suggested that a brief service might be appropriate over the remains of the deceased bandit.

Cap in hand, an ebony-hued trooper stepped forth and solemnly uttered the following words:

"Earth to earth and dust to dust,
"If Carranza won't shoot you,
"The United States must!"

CRUSADE AGAINST LYNCHING.

Much good may be hoped to come from the crusade organized by the denominational colleges of the South against the spirit of lawlessness that finds expression in lynching.

Eighteen institutions of learning are represented in the association and the moral backing of forty colleges is promised. A publicity bureau is to be established and speakers are to be sent out in a campaign of moral education.

It is time concerted action of this kind were taken. Many of the Southern newspapers in recent years have been out-spoken in their denunciation of lynchings and the spirit that fosters them; the effort of the colleges will reinforce strongly the work of the enlightened press. Nothing could be more fitting than that the campaign should be promoted by the institutions that stand for culture, and the gospel of law and justice can be preached by no better evangelizers than the young men of the South, who understand her sentiment and value her traditions. Statistics of thirty years show that there have been 4,000 lynchings in the United States and 90 per cent of them in Southern states. The men who wipe out this dark blot will deserve as honored a place in Southern history as those who led the lost cause of the Confederacy in a mistaken but devoted patriotism.—Rocky Mountain News.

SCOTTISH RITE MASONS WILL HOLD COUNCIL.

Indianapolis, Ind., April 27.—The thirty-sixth annual session of the supreme council of the Ancient and Accepted Scottish Rite Masons of the northern Masonic jurisdiction will be held in this city from Sunday, May 7, to 9, inclusive. This powerful organization embraces Masons who have taken the thirty-third degree, the highest degree in Masonry, and is the lawmaking body for the Scottish Rite in its jurisdiction. The organization has a large membership in each of the northern states.

The coming session will be the second to be held away from the regular meeting place in Philadelphia, and it was only in deference to the increasingly large number of Masons in the far and middle west that this city was selected as the seat of the convention for 1916. Constantine consistory is planning to entertain the organization in the royal fashion that always characterizes the people of the Hoosier capital. The regular business session will be interspersed with many interesting and enjoyable social features, including a banquet.

If you have anything to dispose of, a Want Ad in The Monitor will sell it.

LIEUT. GREEN GOES TO MONROVIA, LIBERIA.

First Lieutenant John A. Green, who has been on duty with the Twenty-fifth regiment, United States infantry, on the Mexican border, was recently ordered by the Secretary of War to be detached from duty with that regiment and appointed as military attache to the American Legation at Monrovia, Liberia. This was the post held until recently by Major Charles Young, who is now in Mexico with the famous Tenth cavalry.

Lieutenant Green, after paying his respects to the Liberian Consul General, the Rev. Ernest Lyon, at Baltimore, went to New York and sailed for Liberia by way of Cadiz, Spain.

INFANTRYMEN GO TO FORT BLISS.

El Paso, Tex., April 27.—Two companies of the Twenty-fourth Infantry have been added to the military force at Fort Bliss. This is the first time in the history of the fort that Race soldiers have been stationed. They were removed by the War Department from Del Rio, where their presence was not in accord with the southern whites because the soldiers refused to be Jim Crowed in the uniforms of Uncle Sam.

WHY SHOULD YOU TAKE COLLIERS?

We have on file on our office the letter written March 25, 1916, from the New York office of P. F. Collier & Son, to Mr. George W. Parker, of 925 North Twenty-seventh street, Omaha, and the card of instructions to agents which was inclosed.

In this letter appears the following paragraph:

"The attached card gives you a list of occupations we do not care to do business with; while hundreds of the people engaged in said occupations are honest, however, our records show doing business with people engaged in said occupations is at a loss, etc."

The list of occupations enumerated as undesirable from Collier's viewpoint of patrons is a long one and includes printers, cigarmakers, tailors and barbers, not proprietors of place or living at home; waiters, hotel or restaurant; dishwashers, laundry help, bell boys, porters, elevator boys, hack and cab drivers, bartenders, telegraph operators, brakemen, laborers, etc. Indeed, the list is so long that one marvels how, if the instructions to agents are rigidly carried out, this magazine can reasonably expect to extend its circulation.

We pass on down the list until we come to class 11. Here we quote:

"11. Transients: Contracts will not be accepted from people stopping at boarding houses or hotels unless we are satisfied that they are permanently located and entirely responsible.

This refers particularly to soldiers, sailors, Negroes, etc."

Opposite this last section is a cross-mark, made presumably by F. H. Royce, whose signature appears on the letter to Mr. Parker.

Why was attention particularly called to this last paragraph? Why should Negroes be classed among transients with soldiers and sailors?

We have been asked by several readers of The Monitor, who subscribed for Collier's through Mr. Parker what we knew about the facts in the case. Local collectors for Collier's have stated that Mr. Parker misrepresented the facts. A letter from Collier's states that "Mr. Parker is evidently seeking notoriety."

We have given the facts. Has Mr. Parker misrepresented them? Do you take Collier's Weekly? Why should you?

CONGRATULATIONS, WORLD-HERALD

The World-Herald has moved into one of the handsomest and best-equipped newspaper buildings in the country. The new home of this liberal-minded newspaper is a building of which growing Omaha may justly

feel proud. In the former building which was its home for more than twenty-five years, one always felt welcome. We believe that the cordiality and courtesy extended to even the humblest who entered its doors by all the employes of this great newspaper from the head down has counted as much in the success of the World-Herald as the marked ability and high literary standard with which it has been edited. We congratulate the World-Herald upon the acquisition of its beautiful new home and wish it the continued success which it so richly deserves.

Dr. Charles Woodward, of the Illinois State Eclectic Medical society, has made the discovery that white men are too salty for cannibals to eat. We are quite sure that this will be gratifying news to this virile group of humanity. If the learned doctor had said that they were too tough for cannibals to eat, he doubtless would have come nearer the truth. It remains now for some other scientist to discover that they are too green to burn and then they who stray from the narrow path may face the future without fear. Salt makes them cannibal proof; asbestos, it is said, is fireproof.

A gentleman has taken great pains in making an estimate of what our people spend yearly in Omaha with the public service corporations, for rents and taxes and living expenses. We believe his estimate is conservative. In order to verify his figures we are going to ask our women who do most of the shopping to save their sale slips which they receive from the various dry goods stores for one month and send them to us. It will help us in approximating what we spend in this line.

We saw five Colored customers in the boys' clothing department of the Brandeis Stores one Saturday afternoon between 5:30 and 6 o'clock. Besides ourselves there were Mrs. Alfred Jones, Mrs. William Jackson and two whose names we did not know. The purchases of two of these customers totaled something over \$22.00. Do not Omaha merchants owe it to themselves and to us to advertise in our race newspapers?

It is wonderful what a little paint will do towards brightening up your home. Paint your places, not your faces.

We have only eight weeks more to wait to see which young lady wins the contest. Don't forget to vote in the banks for your favorite girl. The banks are placed at the Peoples drug store, Terrill's drug store, Gordon's drug store and S. Jackson's restaurant. A committee visits and opens the banks every Tuesday. We hope the young ladies in this contest, with the cooperation of their friends, will finish the debt on this home. As this is the only Negro enterprize in Omaha let the Negro say, with a few exceptions, they paid for it. So help these worthy girls pay for this home.

"WE SHOULD WORRY"

The Omaha Daily News publishes the following:

"Detroit, Mich., May 2.—Members of the Detroit Federation of Women's Clubs will refuse to accept membership in the national federation unless the Detroit Study Club, an organization composed of thirty Negro women, is permitted to affiliate also. This was the ultimatum handed to officials of the national federation by officers of the Detroit body.

Detroit club women believe that the controversy will be one of the big issues at the convention of the national federation, to be held soon."

We gratefully note the action of the Detroit women and appreciate their fine sense of fairness. Their brave stand will win friends for Negro club women and in some distant day the measure may be adopted. For the present it will meet heavy defeat in the national organization.

The state federations are few, indeed, which admit the Negro women. Northern state after state has discriminated against them and the attitude of the Southern states, from whence the largest representation of educated Negro women would come, is too well known.

There is sound argument opposing as well as favoring their admittance. Meanwhile the Negro women have state and national federations of their own and to that vast majority of white whose visions are so narrowed and whose minds are so prejudiced that they will defeat the measure; we would say—pardon the slang—"we should worry."—L. S. E.

After one of the late Booker T. Washington's lectures in the South, a Southern gentleman, carried away by his oratory, rushed up to him, seized his hand, and exclaimed: "Washington, you're the greatest man living!"

"Oh, no," modestly replied Washington. "There's Mr. Roosevelt."

"Aw," responded the Southerner, in disgust, "I never did have any use for him after he invited you to dine with him."

"Now, children," said the teacher, "I have been talking to you about the duty of cultivating a kindly disposition, and I will now tell you a little story of two dogs. Henry had a nice little dog, gentle as a lamb. He would not bark at the passers-by or at strange dogs, and would never bite. William's dog, on the contrary, was always fighting other dogs, or flying at the hens and cats in the neighborhood; and several times he seized a cow by the nostrils and threw her. He barked at strangers, and would bite them unless some one interfered. Now, boys, which dog would you like to own—Henry's or William's?"

The answer came instantly, in one eager shout:

"William's!"—Everybody's Magazine

A GOOD LOSER

All the world loves a good loser—one who, after doing his best, can accept defeat cheerfully and see his rival's success with an unclouded brow. Some people are philosophical over defeat simply because they do not care to succeed, but they are neither good losers nor good winners. It is

the people who care, who struggle and yet fail without losing heart, who are admirable.—The Visitor.

WATCH YOURSELF GO BY

Just stand aside and watch yourself go by;

Think of yourself as "he," instead of "I."

Note closely as in other men you note The bag-kneed trousers and the seedy coat.

Pick flaws; find fault; forget the man is you,

And try to make your estimate ring true.

Confront yourself and look you in the eye,

Just stand aside and watch yourself go by.

Interpret all your motives just as though

You looked on one whose aims you did not know.

Let undisguised contempt surge through you when

You see you shrink, O commonest of men!

Despise your cowardice; condemn whate'er

You note of falseness in you anywhere.

Defend not one defect that shames your eye—

Just stand aside and watch yourself go by.

And then, with eyes unveiled to what you loathe—

To sins that with sweet charity you'd clothe—

Back to your self-walled tenement you go

With tolerance for all who dwell below.

The faults of others then will dwarf and shrink;

Love's chain grow stronger by one mighty link—

When you, with "he" as substitute for "I,"

Have stood aside and watched yourself go by.

—Strickland W. Gillian.

SOUTH SIDE.

Mrs. S. Embry of 4832 So. 26th St., who underwent a slight operation last week, has recovered and is able to take charge of her business.

Miss Beatrice Steward of Collinsville, Ill., a niece of Rev. J. H. Nichols, of South Side, is visiting her uncle. Miss Steward having recently gone through quite a strain from sickness and death in her home hopes to gain advantage by the change. We wish for her a pleasant visit while in our city.

The many friends of Mr. W. H. Scruggs, who has been seriously ill for about three weeks, are glad to know that he is rapidly recuperating.

The Misses Dudleys and brother, Robert, of South Side have moved to the North Side. We more than regret to have them leave our side, but hope to see their faces often and feel they still belong to us.

The Christian Endeavor of Allen Chapel, A. M. E. Church, will have a special program Sunday, May 7th, at 6:30 p. m. Everybody is invited.

Rev. J. H. Nichols, Pastor.

The Negro Women's Christian Association held a large and interesting meeting at the home Wednesday afternoon. Through the efforts of Mrs. A. Bowler, chairman of the House committee, the home has been thoroughly renovated and redecorated. Miss Ellretta Smith has been installed as matron, and the home will now be open at all times for the inspection of the public. Applications for admission will also be received. Since September last, the association has paid more than \$300.00 upon the home, and hopes to be able to wipe out the balance of indebtedness when the Free Trip contest now being run through the columns of The Monitor, closes July 6. We earnestly solicit the cooperation and support of the public. The association desires also to thank Mr. Dan Desdunes, who so kindly donated his services for the charity ball given April 25. Science Notes

BY WILLIAM G. HAYNES.

Through the courtesy of Miss Estella Casey, a very capable and progressive teacher of Domestic Science in the St. Louis (Mo.) Public Schools, we are able to offer the following interesting contributions to the ladies who are readers of this column:

Domestic Science in the Public Schools

This word, preparedness, of small meaning, stands paramount in the minds of all civilized people today. It fits perfectly into all phases and walks of life. Fifty years ago little thought was given to the study of Domestic Science. Today it stands parallel with the other sciences. Colleges and public schools are preparing girls for this great work of "domestic engineering."

Household industries and household science are taught on a systematic basis. Housework is impressed upon the girl as honorable work. She no longer considers it a drudgery to wash dishes, to make up a bed, or to prepare a wholesome meal, but an art. The enthusiasm awakened in school girls for the performance of the common duties of life is of much importance, and each city of the United States should equip domestic science centers for their girls.

We find the girls physically and morally improved, besides being efficient in this line of work; the family conditions are bettered unconsciously; thus domestic science is gradually reaching its goal.

Suggestions for Children's Meals.

Ripe bananas or cooked peaches, or stewed prunes, mashed into fine pieces with a fork and stirred through cream of wheat, rice, oatmeal or other cooked cereals, will make a helpful change from the plain cereal. Bread and butter is rarely refused if covered ever so lightly with some kind of jelly or jam.

Other Suggestions:

- Eggs scrambled with milk.
- Baked apple.
- Baked custard, tapioca and rice pudding.
- Milk toast (thickened or thin.)
- Cocoa made almost entirely of milk.
- Bread pudding (slightly sweetened) made with milk and egg and served with cream.

WHAT IS ALCOHOL?

SCIENCE ANSWERS

(By Dr. E. O. Taylor, Boston, Mass.)

Alcohol is a double poison, narcotizing the nerves and irritating the linings of the body at the same time. Alcohol will do to the man who uses it exactly the same things that cocaine will. Both are narcotic drugs.

For every single argument that can be used for the prohibition of cocaine and other like drugs, we can bring two sound, unanswerable, scientific arguments for placing the social ban upon alcohol and for enacting prohibitory law against its sale as a beverage.

Every poison likes some part of the body better than any other. For instance, the poison of lead likes the muscles of the wrist; mercury likes the salivary glands; manganese the liver; arsenic the coating of the stomach; strychnine the spinal cord; but alcohol likes the brain best.

Professor Hans Meyer, of the University of Vienna, explains why alcohol likes the cells of the brain more than other parts of the body.

Alcohol is a ready solvent of fat, and because the cells of the brain are composed largely of a fatty substance alcohol acts more injuriously on the brain cells than on other parts of the body.

If I had a choice as to what poison should attack my body, I would prefer a wrist drop to a brain drop; a sore mouth to a sore brain; the liver complaint to a brain complaint; a stomach ache to a brain ache.

WHITE MEN ARE TOO SALTY FOR CANNIBALS

Chicago, May 5.—Every modern human being is pickled in brine until his health is ruined and he is brought to an untimely grave through his salt-eating habit; according to Dr. Charles Woodward, of the Illinois State Eclectic Medical society, which is holding its forty-sixth annual convention here. So much salt is eaten by civilized white men that cannibals cannot eat them, the doctor asserted.

"The idea that we must fill every article of food with salt is a most dangerous fallacy," Dr. Woodward said. "Every man needs about twenty grains of salt a day—he eats about 400. This means that his tissues are invaded by a surplus of salt, which cannot be eliminated. The result is a hundred ailments."

"The South Sea islanders never eat a white man, and the explanation given by them is that white men are too salty."

is the basis of all successful achievement, industrial or other.

Banks Indicate Profits.

Evidence of this growing race confidence we saw manifested on every hand in Memphis. Nothing illustrates this better than the fact that there are two banks capitalized, owned, officered and operated by the race in Memphis. These banks have been in successful operation for seven years and are recognized as sound financial institutions by the bankers' association of that southern city. Do you grasp the full significance of this? The more one thinks about it, the more stupendous this appears as a fact and factor in racial evolution. Think of the progress that this one fact indicates. Fifty years ago, scarcely more than that, the Negro was a slave. He owned nothing that he might call his own. Turned out penniless upon an unsympathetic world. Spurned by those who had robbed him of his labor and yet cried him for his thriftlessness and poverty. Today we have bankers! A significant fact which gives the lie to the charge of inability and thriftlessness.

Thriftless people have no need of banks but of almshouses.

Where Did They Learn?

Moreover, where did these men have the opportunity of learning the banking business? Did you ever think of that?

The young white man can enter a banking house and become familiar with the business. This opportunity has been denied the Colored youth. And despite this fact, we have members of this race successfully conducting banks throughout the South and one in Chicago.

The two Memphis banks of which we shall tell you in our next article, are the Fraternal Savings Bank and Trust Company, located at 358 Beale avenue, and the Solvent Savings and Trust Company, of 390 Beale street. We had the pleasure of being shown through these banks and of meeting the officials and clerks, all affable, keen, alert business men of whom we have every reason to be proud. We were told of the successful Christmas Club by which they had induced many to start savings accounts and of the growing habit of saving on the part of our people. In our interview with these gentlemen our narrow horizon was enlarged.

We were told by one of our interested readers that these articles are too short and "break off most exasperatingly at the most interesting part." Glad they are interesting, and sorry that they must break off so abruptly, but then, you know our space is limited.

TO PROMOTE NEGRO BUSINESS LEAGUE

Tuskegee Institute, Ala., May 5.—In their desire to make the National Negro Business League an organization of direct service to its members and to the race in general, the officers and members of the executive committee through the co-operation of a friend of Tuskegee Institute and of the late Dr. Booker T. Washington, have decided to send an experienced advertising man into various communities as its representative to organize new local Negro Business Leagues, revive local leagues which have become inactive and to help local leagues outline a definite, constructive program for extending the trade of race enterprises through standardized advertising and merchandising methods.

Beginning May 1st, Mr. Albon L. Holsey, who has attained considerable experience as an advertisement writer and all-around advertising man, will begin a whirlwind campaign under the auspices of the National League, covering the South and Southwest. For nearly two years, Mr. Holsey has been closely associated with Mr. Emmett J. Scott, secretary of Tuskegee Institute and also secretary of the National Negro Business League, with whom he has worked as an assistant in the Business League work. He is, therefore, thoroughly conversant with the league's activities.

The itinerary which has been outlined includes visits to important cities in South Georgia, North Florida, Louisiana, Mississippi, Texas, Arkansas, Oklahoma, Missouri, Southern Illinois and Indiana, Western Kentucky and concludes at Kansas City, Missouri, August 16, when the annual session of the National Negro Business League begins.
